

2-Way Foley Silicone Catheter -Tiemann Tip

PRODUCT DATA SHEET

DESCRIPTION

The 2-Way Foley Catheters with Tiemann Tip are made from 100% medical grade translucent and flexible silicone. Equipped with all the features of the traditional Foley Catheter, the Tiemann Tip version is designed to support the more demanding insertion. The symmetrical balloon expands equally in all directions to ensure reliable positioning in the bladder. After deflation, the balloon minimises potential ridging.

FEATURES AND BENEFITS

- Radiopaque
- Symmetric Balloon
- Long indwelling time of 8 weeks
- Translucent silicone
- Colour coded
- Latex free
- Peel open pack
- Material: Silicone
- Length: 41cm
- Balloon size: 10mL
- DEHP: No
- Shelf life: 5 years
- ARTG number: 211796
- Sterile EO

PRODUCT PACKAGING LABEL

PRECAUTIONS

- Minimum: 10mL (10mL) (10mL)
- As per laboratory based testing results and validation against requirements of BS1616.
- Ensure the drainage bag is positioned below the level of the bladder and is off the floor.
- The security of all connections should be checked once the catheter is connected to the drainage bag and also when being used to provide of assistance.
- Ensure the catheter is stored in the bag and is not folded or kinked when stored.
- Do not deflate the balloon prior to insertion.
- Ensure the catheter is secured to the patient immediately after insertion using a deflated catheter securement device.
- After deflating the balloon, once the syringe is connected to the non-return valve, allow the syringe to fill independently until the balloon volume is exactly 10mL in the syringe.

CAUTION

- DO NOT use with intravenous or subcutaneous or peritoneal access.
- Use immediately after opening packaging. Do not reuse.
- DO NOT use if packaging or product has been damaged or contaminated.
- DO NOT store at extreme temperatures and humidity, avoid direct sunlight.
