

Universal Securement Device

DESCRIPTION

The Universal Securement Device provides securement of catheters, drains and other tubing in two simple steps. Adhesive strip ensures the catheter does not slide once in position and the soft material tabs cross over each other to secure the tubing in place. Available in two sizes; standard and large, to accommodate a variety of diameters of tubing, catheters, drains and other devices.

FEATURES & BENEFITS

- Two stabilisation steps ensures maximum securement to prevent sliding and dislodgement
- Low irritant, soft adhesive dressing
- Soft material tabs can be re-applied numerous times to reposition
- Easy to apply and remove
- Upon removal skin remains free from residue and does not require any additional products to assist with removal
- Two available sizes accommodates various tubing diameters and provides versatility

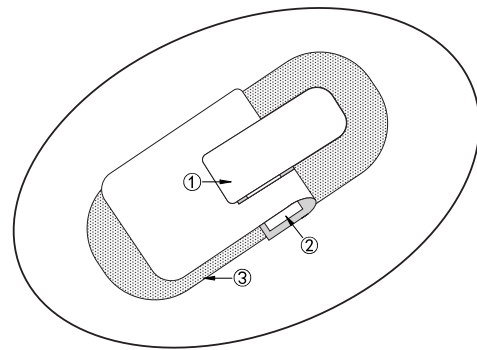

PRODUCT DATA

- Standard size: 6.5cm x 10.5cm
- Large size: 8.5cm x 12.5cm
- MRI compatible: Yes
- Materials: Nylon, non-woven fabric, acrylic adhesive, glassine paper
- Not Made with Natural Rubber Latex
- ARTG Number: 391651
- Shelf life: 5 Years
